
ABSTRACT OF THE DISCLOSURE

3
The invention concerns a wheel-balancing device embodying a balancing weight enclosed in a case, one surface of which is adapted to be made integral with a tire and which is made of a material having the same color as the tire. The invention also concerns a wheel having a rim and a tire that is balanced with such a balancing device. The color of the case can in particular be black or white, depending on the color of the tire.
